

First Announcement

Scandinavian Neuro-Oncology Society Meeting October the 11th – 12th 2007 in Copenhagen.

Welcome.

Dear colleagues and friends.

It is with great pleasure I will inform you about the upcoming SNOG meeting in Copenhagen 2007.

The meeting will take place at Radisson SAS Falconer Hotel & Conference Center. The main topics of the programme will be basic, translational and clinical research within Neuro-Oncology focusing on the importance of multidisciplinary character of Neuro-Oncology.

The meeting will start October 11th at 12 o'clock, and end October 12th around 15 o'clock. There will be presentations of scientific papers primarily presented by young scientists. In addition, there will be one or two international well recognised scientists invited to speak on issues important within Neuro-Oncology. In the evening there will be a light dinner.

During October 12th a newly instituted SNOG award of 2.600 Euro will be given for the best presentation to strengthen the work and interests in the Neuro-Oncology field.

A more detailed program and invitation for the SNOG meeting will be sent out later.

I hope that everybody will participate and relate to each other both in terms of science and in terms of social interaction.

I look very much forward to welcoming you in Copenhagen in October 2007.

Yours sincerely,

Hans Skovgaard Poulsen
President
The Scandinavian Neuro-Oncology Society.
